## Together We Save *Even More*

Looking for information about lowering your energy bills?

Rock Energy Cooperative has you covered. We're part of a nationwide energy efficiency campaign known as Together We Save. The campaign's mission is to motivate co-op members like you to make small changes in behavior that add up to big savings.

Together We Save offers a collection of resources and advice on simple energy efficiency steps you

can take in your home.

The campaign has recently been recharged with more tips and ideas to help you save even more money.

TogetherWeSave.com offers videos, interactive applications, and an energy savings forum.

Take the Energy Savings Home Tour by clicking on the "Add Up Your Savings" tab and discover how small changes add up in a big way. The Home Tour guides you through each room in a typical home and recommends several energy-saving tips in each room.

Helping our members save money during tough times is important to us. It's just one more way Rock Energy Cooperative is looking out for you.

### Energy Efficiency

*Tip of the Month*

This season, decorate with LED holiday lights, which consume 90 percent less energy than traditional miniature lights, operate 30 times longer, and stay cooler (meaning increased safety when used on wreaths and trees).
