

CURRENT ELECTRIC CHARGES				AMOUNT
1	Facility Ch			\$35.00
2	Generation Energy Supp Cr	100	kwh@	-0.032
3	Generation P.C.A Cr	100	kwh@	0.001
4	Coincidental Demand Cr	1.000	KW	-31.25
5	Energy Supply Ch	200	kwh@	0.032
6	Energy Distribution Ch	200	kwh@	0.0168
7	Power Cost Adjustment	200	kwh@	-0.001
8	Coincidental Demand Ch	3.000	KW@	34.72
9	Non-Taxable Public Benefits			1.33
Total Current Electric Charges				\$115.70

- 1. Facilities Charge** covers maintenance of line equipment and other expenses associated with providing service to a location.
- 2. Generation Energy Supply Credit** is the amount credited to the account for any excess energy (kWh) produced.
- 3. Generation P.C.A. Credit** can either be a credit or debit based on the short term fluctuations in the cost of fuel charged by our power supplier.
- 4. Coincidental Peak Demand Credit** is the amount credited to the account for any excess demand (KW) produced during the hour of the coincident peak.
- 5. Energy Supply Charge** is the amount due for the energy (kWh) consumed from Rock Energy.
- 6. Energy Distribution Charge** is the amount due for the delivery of the energy (kWh) consumed from Rock Energy.
- 7. Power Cost Adjustment** can either be a credit or debit based on the short term fluctuations in the cost of fuel charged by our power supplier.
- 8. Coincidental Peak Demand Charge** is the amount due for demand (KW) consumed from Rock Energy during the hour of the coincident peck.
9. Applicable state and local taxes are charged.
